

Subject: Application for Internship in Tourism Development

Dear Hiring Manager/First Class Tours Team,

This correspondence serves as a response to the advertisement for First Class Tours' internship in tourism development. As an intern who is passionate about creating the ideal travel and tour experiences to a variety of stunning travel destinations, I am excited to join your team.

I bring, with passion, efficiency, and quality service delivery to clients as one of my strongest experiences. CHIEF Organization employed me as a project manager, and I worked with the marketing department with Kush Radio as a marketing manager, and I supervised the studies department in Juba Junior School as a director of studies. All these positions have built me to relate to different people, learn to work under pressure in new roles, and to be hereby attuned entirely to teamwork.

Out of the many tour services that operate today, I am especially interested in First Class Tours because of your passion for awesome traveling. I like your focus on professionalism, on details, and on giving memories. In fact, I am sure that interning with your team will not only polish me the more but also help me make pertinent contributions to your noble cause.

Thank you for the opportunity to apply for a tourism development position. I look forward with great enthusiasm and passion to the opportunity to implement all my endeavors at First Class Tours and, at the same time, learn from the esteemed team.

Warm regards,

Akech Jacob Majur,
